

A STORY OF OCEAN PLASTICS RECOMMENDED TEACHING PLAN

OBJECTIVES:

- To give students a basic understanding of nature and the relationships between humans and the environment
- To make students understand the importance of cherishing natural resources and protecting the environment and be willing to bear the responsibility of environmental conservation
- To arouse students' concern for the environment and sustainable development
- Encourage students to practice green living

RELATED SUBJECT AND CURRICULUM:

General Studies -
People and Environment

TARGET:

WWF online
teaching materials:

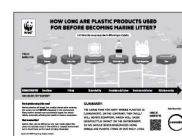

Marine litter story
powerpoint slides

Marine litter survey
record sheet

Coloring worksheet

Marine litter
worksheet

Teaching Plan A (for Primary 1-3)

	Activities	Objectives	Materials	Duration
Introduction (Indoor)	Background on marine litter	To have basic knowledge on the marine litter issue	• Marine litter story powerpoint slides • Marine litter worksheet	Two lessons

Debrief	• Personal pledge • Habit record sheet	To encourage students to adopt sustainable lifestyle	-	-

Online resource bank:

WWF has established an online resource bank to aid teachers as they prepare lessons related to marine litter. We encourage all teachers to assess these resources at: www.wwf.org.hk/edu_resources_eng
