

# TRANSPORT

Personal car ownership is responsible for about 11% of Hong Kong's daily Ecological Footprint.

Whether you are heading to work, school or the shops, consider alternatives to driving.

## ✓ TAKE PUBLIC TRANSPORTATION

Take a bus, train or ferry to save fuel and reduce pollutants while enjoying the time gained by not focusing on the drive.

## FOOT POWER

If you haven't got far to go, make a healthy choice and opt to walk or cycle. It's also free

## CAR POOL

Ask your friends to share a ride, saving money, reducing traffic congestion and lowering your carbon footprint.

TRAVEL LIGHT

SAVE 10%

## AIR CONTROL

Car air conditioning uses around 10% extra fuel! Make sure your conditioner is properly serviced for full efficiency.

## SERVICE YOUR VEHICLE

Keeping your vehicle well-tuned means it operates at its most efficient, and will use less petrol.

## DRIVE SMOOTHLY

SAVE

Avoid unnecessary acceleration and braking by driving at a safe distance from the car in front on you.
